

Miracles in Motion Therapeutic Equestrian Center Enrollment Donation Policy

Miracles in Motion operates entirely from voluntary contributions. Our annual program cost is approximately \$1,000 per student.

- Enrollment costs are tax deductible only if the donation exceeds the value of the service provided. The fair market value of fifty minutes of therapeutic riding instruction is \$25.
- We suggest a donation of \$25 per lesson; however, it is the policy of Miracles in Motion to provide service to students of any means. We do understand that not all people will be able to pay _____\$25 per riding lesson, but some contribution to the program is required by each student/family. If possible, please make this contribution at the time of enrollment.
- Private lessons are available for a set fee of \$35 per lesson.
- In order to fund our annual budget, we ask all students, parents, and volunteers to actively participate in our annual fundraising efforts.
